

EDUCATION

BE-CSE – Sri Eshwar College of Engineering (7.96 till semester 5)	2023 – 2027
HSC – Pachamuthu Matriculation Higher Secondary School (79.3%)	2021 – 2023
SSLC – Pachamuthu Matriculation Higher Secondary School	2020 – 2021

INTERSHIPS

MERN Stack Intern:

Successfully gained hands-on experience in working with MongoDB, Express.js, React.js, and Node.js (MERN stack). This internship at Rampex provided valuable exposure to full-stack web development and helped me build and deploy interactive, real-world projects using the MERN framework.

PROJECTS

HEALTH JOURNAL - MERN Stack

Developed an interactive Health Journal Dashboard using the MERN stack (MongoDB, Express.js, React.js, Node.js). The dashboard allows users to track symptoms, view health history, monitor recent activities, manage medications, and access wellness resources, enhancing user experience through a clean and intuitive interface.

TEACHERS LOG REGISTER - MERN Stack

The Teachers Log Register is a web-based application developed using the MERN stack (MongoDB, Express.js, React.js, and Node.js). It enables educators to efficiently record and manage student attendance and academic performance, while offering automated report generation for streamlined tracking and analysis. This system enhances productivity and simplifies academic record management through an intuitive and user-friendly interface.

AI PLANT ANALYZER - MERN Stack

As the Team Lead, led the development of a web-based Plant Disease Detection and Monitoring System that enables users to upload plant images and receive AI-simulated disease identification results. The platform includes interactive result visualization and a community discussion forum to enhance user engagement, collaboration, and knowledge sharing among users and experts.

CERTIFICATIONS

Learning React	Infosys	2025
Certified in Data Structures and C++	Udemy	2024
Learn JAVA Programming - Beginner to Master	Udemy	2024
Certified in C Programming by Infosys Springboard	Infosys	2023
Certified in C Developer Course	Udemy	2023

CODING - ACHIEVEMENT:

Leetcode : 116 problems, SkillRack : 600+ problems

SKILLS

Languages and frameworks – C | C++ | HTML | CSS | JavaScript | React | Node | Java |

Tools – VS code | GitHub | MongoDB |
